### What is a PDX?

The PDX provides an instructional environment for drivers who want to improve driving skills and increase their enjoyment of driving their street vehicle. PDX is SCCA's unique version of "track" or "lapping" days. True to the "run what ya brung" adage, all it takes to be a part is your street car, a valid license and a helmet. A limited number and sizes of loaner helmets are available. (Helmet must be M95 or SA95 at a minimum)

### Why Should I Participate?

All of us have done the burn-out at a red light, or taken that curve at more than the "suggested speed," imagining ourselves as racers while never leaving our street cars. With Performance Driving Experience (PDX) events, you don't have to dream anymore! PDX events are about you, the driver. Plenty of seat time, plenty of individual instruction and a ton of driving exercises make up a PDX; all of which is designed to educate you and make you more confident behind the wheel, both on the track and on the street. It's time to explore the capabilities of the car you purchased.

Participants receive a solid blend of driving instruction, ranging from the classroom to in-car training to "follow me" drills. A wide range of topics are discussed and shown at a PDX, including: following a "racing line", passing zones, speed limits and other general driving techniques. Of

feedback from his or her instructor at the end of each lesson. Experienced racers or lappers can run without an instructor.
